

**Job Purpose:** To implement project activities geared towards achieving nutrition programme objectives of reducing morbidity and mortality through provision of essential nutrition services in any of the states of South Sudan

**Key Responsibilities****Technical:**

- Implement all activities necessary in CMAM program including TSFP, OTP, SC, IYCF and the community out-reach component activities.
- Provide on-the-job training following national (CMAM and MIYCN Guidelines) and international guidelines to locally recruited nutrition staff, MoH and other nutrition partners.
- Provide training on, supervise and oversee facility and community based screening for malnutrition in children (6-59 months) and pregnant lactating women.
- Provide training to community nutrition assistants and volunteers on key IYCF messages at facility and community level as per the National Maternal, Infant and Young Child Nutrition (MIYCN) guidelines.
- Undertake community sensitization to the local authorities and community leaders to ensure they have a good understanding of Medair's programming and interventions.
- Participate and support conducting of Nutrition Programme assessments undertaken by Medair in the operational area.

**Staff Management:**

- Assist in supervising locally recruited staff working at nutrition facilities. Supervise the Community Nutrition Volunteers to effectively undertake the Community Out-reach component,

**Quality Management and beneficiary accountability**

- Undertake weekly site supervision exercise using the Medair Monitoring and Supervision Checklist for CMAM (SC, TSFP, OTP, Community mobilization), track the identify gaps (creation of a log book which will show the improvement of the findings) provide feedback to the implementation team and devise mechanisms to address identified gaps.
- Ensure proper documentation is in place and being used with regards to therapeutic ration and other Gifts in Kinds given to nutrition programme beneficiaries.

**Reporting**

- Develop and submit required daily and weekly nutrition programme report.

**External Representation**

- Attend nutrition meetings at field implementation level as requested by the Nutrition Manager.
- Refer to the Nutrition Manager/s, Nutrition Project Manager before making any commitment (verbal or written) on behalf of Medair.

**Logistics:**

- Assist in preparing field orders for approval by the Nutrition Manager/Nutrition Project Manager.
- Help ensure adequate nutrition stocks are available and adequately stored at facility level at all times for patient load. In this sense, ensure proper and correct stock management to protect the food commodities and to avoid stock ruptures
- Assist in monitoring expiry dates to ensure stocks are utilized prior to their expiry or the Medair team leader is notified in advance to utilize in other locations
