## Introduction:

ICT plays an integral role in every aspects of our lives, and especially at the industry levels; helping companies, institution/organizations, governments and private businesses improve their performances to achieve cost efficiency that drive growth and maintain a high competitive advantage in the working environment.

BraVo is a national technology based and investment wise company in the heart of the nation's capital JUBA - Republic of South Sudan; the company is aiming at restoring, uplifting and maintaining the reputation & trust of our young national talented professionals; and thus the theme of the company "Creativity & Trust...Re-defined".

BraVo houses a team of young national professionals with an international handful of experiences in the ICT industry and business.

## Goals and Objectives:

- Enhance the current state of ICT country wide and ensuring IEEE standard.
- Provide a complete support and comprehensive solutions on all the platforms.
- Undertaking a short, medium and large range maintenance program/projects...etc periodically to avoid the risk of service delivery.

## Vision:

- Drive technology back home by establishing an ICT hub in the country.
- Strive to educate the simple tech-knowhow to stuff/individuals to ensure efficiency and effectiveness in service delivery.
