TOP FIVE REASONS TO ADD
OEM approved transceivers from Tiam LTD to your networks

1   OEM transceivers are much too expensive!

2   OEMs like Cisco and Juniper often have VERY long lead times

3   Increased warranties over the OEMs (Cisco = 90 days, AMC Optics = Lifetime!)

4   100% OEM Compatible – Equal Performance with much lower costs

5   Stretch your IT budget further by adding Tiam compatible transceivers in with the OEM original!

Fiber Optic Transceivers
Network Memory Upgrades
Fiber Optic Cables
Media Converters
DWDM & CWDM MUX/DEMUX

Small form factor, pluggable

KEY BENEFITS:

- 100% Full Lifetime Warranty
- Free Advanced Replacement and Engineering Support

FAQ:

- **What is the difference between Tiam Optics product and OEM or other third party manufacturers?**
  Absolutely nothing, the only difference is price, packaging, and service.

- **Are Tiam Optics components compatible with all OEM's?**
  Yes, AMC Optics components are tested in our on-site lab to guarantee 100% compatibility with any OEM.

- **Does Tiam Optics offer third party solutions for other than Cisco and HP Procurve?**
  Yes, AMC Optics offers a 100% compatible third party option for any OEM from Adtran to ZyXel.

- **What is the warranty on Tiam Optics third party receivers and memory?**
  All AMC Optics OEM Approved transceivers and memory come with a LIFETIME WARRANTY!

- **Will the use of Tiam Optics third party components void my OEM warranty like Smartnet?**
  No, an OEM cannot void warranty for the use of third party components.

  To see Cisco's official Third Party Policy simply search "Cisco third party policy" or go to:
  http://www.cisco.com/en/US/prod/ prod_warranty09186a00800b5594.html
