Company Profile.

What We Do:

The Maintenance Shop is a local auto repair shop here in juba. We offer the best auto repair services. Here's a quick rundown of our capabilities:

- Routine maintenance services such as oil changes, fluid exchanges, tire rotations, and much more.
- Auto Repairs from simple jobs to complex diagnostics and repairs.
- Engine and transmission repairs, rebuilding and replacements.
- Complex Electrical diagnostics and repairs
- Bodywork/Paint Job

We offer the following services:

Engine Repairs, Engine Rebuilding, Engine Diagnostics, Engine Replacements

From diagnostics, to complete engine rebuilding, we can do it all.

Brake Repairs, Brake System Service, ABS Brake Repairs

We use superior parts and expert service technicians to give you the best brake jobs around. With our service, your car can stop up to 15 feet sooner.

Automatic Transmission System Repairs and Service

From Transmission services, drain, flush and fills to complete transmission overhaul.

Check Engine Light & Computer Diagnostics

We utilize state-of-the-art equipment and contemporary standards to diagnose your car's troubles. Coupled with our experience and our industry computer resources, we quickly diagnose and repair your car and get it right the first time.

Suspension, Shocks, Struts, CV Boots and 4 Wheel Drive Repairs & Service

Your suspension is critical to a smoother drive and more importantly better handling. When your suspension has problems you can become unsafe because it may not handle well in emergency situations. Shocks and struts do require periodic replacement too.

Differential Service

This is one of the most overlooked maintenance services on cars, trucks, and SUVs. Your car's differential gearbox contains heavy grease to keep it running smoothly. When the service interval is extended, it causes premature wear, excessive noise and costly breakdown. A differential can cost as much as \$1500 to replace. This inexpensive service can prevent that.
