International Committee of the Red Cross  
ICRC Compound, Ministries Road, Amarat Juba, South Sudan

## JOB ADVERTISEMENT WATER AND HABITAT ENGINEER 1 Based in Juba for the Equatoria Sub Delegation

The International Committee of the Red Cross (ICRC) is an impartial, neutral and independent organization whose exclusively humanitarian mission is to protect the lives and dignity of victims of armed conflict and other situations of violence and to provide them with assistance.

The ICRC is mandated to work in countries affected by armed conflict or other situations of violence. The ICRC is present in over 80 countries and has some 13,000 field staff.

In 1986, the ICRC expanded its presence to South Sudan. There are more than 700 ICRC staff working in Juba, Bentiu, Malakal, Rumbek and Wau. The ICRC is looking for an enthusiastic and motivated person for the above position.

**ICRC is Equal Opportunity Employer giving highest priority to staff safety and security.**

For more information, visit website: <http://www.icrc.org/>

### AIM OF THE POSITION

WatHab Engineer 1 plans, designs and implements engineering projects within the scope of the ICRC's water and habitat assistance objectives with supervision and coaching from their hierarchical superior. S/he monitors on-site works, carries out needs assessments and surveys, and plans new projects. S/he has a close working relationship with external stakeholders related to their projects.

### Main Duties and Responsibilities:

- Assesses needs according to WatHab criteria by collecting all relevant information for the implementation of the program.
- Undertakes technical assessments of infrastructure (buildings, water sources, etc.).
- Undertakes assessments of the functioning of maintenance and management systems such as maintenance teams, water user committees, etc.
- Analyses the collected information, draws appropriate conclusions, makes recommendations and presents the results, both orally and in reports.
- Proposes and designs WatHab projects to meet the assessed needs according to objectives.
- Carries out costing of projects and prepares Bills of Quantities.
- Produces outline and detailed designs of simple civil and structural works; manages and supervises contractors and daily workers.
- Ensures works are implemented to specification, on time, and within budget.
- Designs training sessions for pump mechanics, water user committees, hygiene committees, maintenance teams, etc., in collaboration with other ICRC departments.
- Manages and performs training sessions; production of engineering drawings; reports regularly on programme implementation, both orally and in written; contributes to the monthly financial forecast.
- Ensures paperwork (MoU, contracts, certificates, etc.) relevant to the WatHab program is established, and follows up with administration to ensure that documents are properly filed.
- Ensures payments of daily workers, suppliers and contractors according to procedure.
- Organises material deliveries and ensures checking of the material quality and conformity of paper work

### Minimum required knowledge & experience:

- Bachelor Degree, an Associate Degree or equivalent higher

**Only short-listed candidates will be contacted. Application files not retained will not be returned.**

- OR Education degree in water supply, sanitation, construction, engineering or any related technical field.
- Additional vocational training in water supply, sanitation, construction, engineering or any related technical field.
- 4-6 years of experience in water supply, sanitation, construction, engineering or similar technical position.
- Advanced conversational skills in English and Arabic, plus advanced written English.
- Expert level in computer skills, including programmes such as AUTOCAD
- Familiarity with the standard norms and rules in construction, local techniques and requirements for construction.
- Driving license.
- Experience in assessing, surveying, calculating and preparing estimates and technical drawings of buildings.
