VACANCY NOTICE

Action Against Hunger is a non-governmental organization that aims to provide solutions to hunger. Our mission is to save lives by eliminating hunger through the prevention, detection and treatment of under-nutrition, particularly during and after emergency situations linked to conflicts or natural disasters. Action Against Hunger focuses on nutrition, health and healthcare practices; food security and livelihoods; water, sanitation and hygiene and advocacy.

Action Against Hunger USA is currently looking for a highly motivated and committed candidate for the position of **SC-Medical Doctor** (1 position)

Position open date: May 9, 2019

Closing date: May 28, 2019

Starting date: ASAP

Duty Station: Paguir

TASK & RESPONSIBILITIES

Objective 01: Patients management

- Examine and screen the children for SC admission
- Ensure correct admission criteria to the SC are followed
- Relate well to the SC Caretakers, in terms of welcoming them, informing them of what they should expect and what is expected from them while they stay at the centre.
- Ensure standard therapeutic treatment protocol and the systematic treatment.
- Prescribe and ensure correct dosage of medications.
- Arrange consultations of the admitted children and with caregivers.
- Regular 2hr/day OPD sessions by medical doctor for treatment of common illnesses in non-malnourished children under 5 and other community members
- Regular ANC services to pregnant women (self-referred and TSFP patients)
- Regular HIV history taking, testing, and referral to VCTC.
- Regular TB history taking and referral

Objective 02: Ensure follow up of the patients during treatment

- Responsible for the day to day SC program activities
- Take the history from each patient and conduct the clinical examination (looking after medical complications and their treatment; diarrhoea, dehydration, hypothermia, hypoglycaemia, anaemia, skin disease, pneumonia, and other infections).
- Identify patients that presents severe medical condition and provided appropriate care;
- Ensure that anthropometric follow up of the patients are carried out on daily basis;
- Ensure that the patient are referred for vaccination;
- Ensure the daily medical follow up of the patients (vital signs)
