Clinical Instructor AAH-I South Sudan

Work Location: Maridi Hospital

About Action Africa Help International

AAH-I, an international non-profit making agency that implements humanitarian relief, recovery and development projects in Africa, seeks to qualified candidate for the position of Clinical instructors (CI) will serve in health care settings such as hospitals and clinics as well as in diagnostic labs and academic settings like the skills lab and provide teaching in other subjects to Students as assign by the supervisor. The clinical instructor role is to provide instruction to students based on a course syllabus. Typically students receive classroom instruction from a different tutor or instructor, while the CI handles only the clinical. The CI may also use textbooks or other written materials but relies heavily on laboratory simulations and on-site rotations. The CI is responsible for connecting the classroom material and its real-life application and for accommodating the varied learning styles and paces of clinical students. The CI will hold the responsibility for coordinating student rotations or site visits and for helping students understand their duties in different settings. CI should ensure that the clinical lessons tie in with classroom lessons that have already been completed so that students have the necessary knowledge base for their laboratory or clinic lesson. The CI will also supervise the students during site visits and rotations, providing guidance as the student.
The CI should conduct formal student performance evaluations, as well as occasionally providing informal feedback. Students will rely on their CI for guidance regarding the effectiveness of their actions and decisions and for information about how they can improve
