JOB OPENING
WATER AND HABITAT ENGINEER III
Bentiu Sub Delegation (temporarily based in Juba)

The International Committee of the Red Cross (ICRC), an impartial, neutral and independent organisation striving to protect and assist the victims of war and internal violence, has been working in South Sudan since 1986. The ICRC is looking for an enthusiastic and motivated person for the above position working for Bentiu Sub delegation and temporarily based in Juba until the reopening of the Sub Delegation office in Bentiu town.

Main Duties and Responsibilities:

- Frequent long trips to monitor the implementation of various Water and Habitat (WatHab) projects in the area of responsibility of the Bentiu Sub Delegation.
- Manages team of workers, provides technical expertise and ensures the project adheres to the pre-defined plan.
- Assists the delegate with field assessments whenever necessary.
- Prepares technical proposals for WatHab projects independently.
- Independently carries out all possible activities related to hand pump / borehole / water yard / water treatment plant rehabilitation / construction.
- Trains and supports the local pump mechanics on hand pump and generator repairs.
- Supports the water user committees to ensure the maintenance and operation of any water point.
- Participates in the evaluation of projects: technical study, engineering drawings, bill of quantities, tender launching and contractor selection.
- Develops and maintains a network of contacts relevant for water programs and engages authorities and beneficiaries in the projects.
- Assists the work in ICRC premises whenever required.
- Assessment, implementation and monitoring of the projects
- Assists with reports and statistics.

Minimum Required Skills and Qualifications:

- Bachelor Degree, some college coursework completed, an Associate Degree or equivalent higher education degree in water supply, sanitation, construction, engineering or any related technical field
- 2-5 years of experience in water supply, sanitation, construction, engineering or similar technical position
- Good command in English and Arabic
- Good knowledge in computer skills
- Skilled in the following competencies: Adapting & Learning; Team Work, Planning, Organization & Assessment; Analysis & Synthesis; Responsibility & Autonomy
- Familiarity with the standard norms and rules in construction, local techniques and requirements for construction
- Experience in assessing, surveying, calculating and preparing estimates and technical drawings of buildings.
- Driving license, succeeded in ICRC driving test.

Interested candidates should submit their application clearly marked "**Water and Habitat Engineer III – Bentiu SD**" (including C.V. written in English and copies of certificates) at latest **Thursday, 29th June 2017** to **The Administrator**.

either At the ICRC reception : Juba, Malakal, Wau, Pariang, Bor, Rumbek
or By email to : jub_hr_services@icrc.org

Only short-listed candidates will be contacted. Application files not retained will not be returned.
