

**MSF SPAIN IS OPENING THE RECRUITMENT OF: LABORATORY TECHNICIAN
(BASED IN ULANG/CONTRACT STARTING WITH 6 MONTHS/LEVEL 5)**

In line with our Strategic Orientations, we are actively seeking to improve the gender balance in the organization, particularly in the medical department, and That's why, females are strongly encouraged to apply.

Medecins Sans Frontieres/Doctor without Borders (MSF), founded in 1971, is an international humanitarian organization that provides emergency medical assistance to populations in danger in more than 60 countries. MSF has been present in South Sudan for 30 years. Médecins Sans Frontières is an international independent medical-humanitarian organization, which helps populations in distress, victims of natural or man-made disasters, and to victims of armed conflict, without discrimination and irrespective of race, religion, creed, or political affiliation.

MSF is a civil society initiative that brings together individuals committed to the assistance of other human beings in crisis. As such MSF is by choice an association. Each individual working with MSF does it out of conviction and is ready to uphold the values and principles of MSF.

Main Purpose

Perform clinical laboratory activities according to MSF protocols, security and hygiene measures in order to obtain results to determine the patient's treatment.

Main Duties & Responsibilities

- According to medical prescription, preparing and performing clinical exams/tests with appropriate techniques and following MSF protocols and procedures.
- This function includes the following among others;
- Taking blood, vaginal and urethral samples.
- Centrifuging blood, CSF, body fluids and urine samples.
- Performing laboratory exams (serology, hematology, biochemistry, bacteriology or parasitological, according to context of the mission).
- Preparation, management, stock and disposal of working solutions according to MSF protocols.
- Perform blood grouping, screening, bleeding of donors and cross/matching.
- Ensuring proper cold chain management
- Ensuring proper reporting and registration of the sample results in order to keep a written track of activity and give information to the relevant persons, ensuring confidentiality.
- Taking care, manage and organize efficiently the laboratory material/equipment:
- Perform cleaning and minor maintenance for biomedical equipment used. Following the user manual and protocols and alert supervisor in case of malfunctioning
- Applying hygiene and safety protocols, doing daily cleaning /maintenance, sterilization, washing general glassware after procedures are done.
- Ensuring proper sample waste disposal according to MSF protocols and highest safety standards.
- Supplying orders, do stock, storage conditions follow-up, keep inventory.
- Keeping organized the data collection system of laboratory results and all information generated from the analysis done.
- Reporting all relevant information linked to the activity in the laboratory to the line manager, especially the loss/robbery/damage of laboratory equipment or medicines.
