VACANCY ANNOUNCEMENT

Job Title: RSRTF Project Construction Engineer
Department: RSRTF
Reports to: RSRTF Project Coordinator
Duty Station: Koch

World Relief South Sudan is the South Sudanese branch of World Relief, an international non-governmental organization dedicated to partnering with the local Church, to see the most vulnerable people transformed economically, socially, and spiritually. Since 1998, World Relief has been working with the local Church to address humanitarian and development needs related to Health, Nutrition, Food Security & Livelihoods (FSL), Education, WASH (Water, Sanitation & Hygiene), Protection, Disaster Risk Reduction (DRR), and Church Empowerment.

Currently, World Relief is leading a consortium of 5 partners in the implementation of the RSRTF project in Koch and neighboring Counties in Unity State. To fulfil the project objectives, WRSS is seeking to recruit RSRTF Project Construction Engineer

POSITION SUMMARY

Within the framework of RSRTF Project, Project Construction Engineer will complete organizational and project management responsibilities to effectively lead the construction team and ensure they have all of the resources they need in a safe and productive environment. The PE will lead the, planning, implementation, monitoring, reporting and evaluation of all construction projects in WRSS with attention to the (a) Providing architectural and structural Plans; (b) interpretation and transfer of architectural and structural plans into buildings; and (c) Supervision of construction work to ensure standards are adhered to (d) accurate and timely reporting construction projects. In this connection, s/he will:

KEY RESPONSIBILITIES

- Develop architectural and structural plans to the highest quality standards
- Advise the RSRTF project Manager on all standards and requirements for the construction projects
- Manage a team of workers, including work schedules, project progress and resource allocation
- Fulfill human resource needs by hiring, training, scheduling, assigning, coaching, and disciplining employees; adhering to procedures and policies; recommending compensation; and communicating job expectations.
- Travel to and supervise multiple project sites during the course of the project

STAND / WITH THE VULNERABLE

- Accomplish project goals by defining scope and purpose of the project, determining required resources, allocating resources, establishing protocols and standards,
- Work with RSRTF Project Manager and Project Coordinator in evaluating deadline estimates and adjusting as needed, and implementing change orders to ensure timely delivery of projects
- Meet construction budget by providing Bills Of Quantities, cost estimates for materials and labour and other project costs, identifying variances, and monitoring project expenses
- Make changes in the operation as necessary to best meet construction budget and deadlines
- Maintain a daily log for the job site's operations, reporting to management as necessary
- Collaborate with clients, Project Managers, other construction management to determine budget and timeline
- Approve projects by performing inspections at critical construction phases
- Meet operational standards by resolving problems, contributing information to strategic plans, and identifying improvements
- Hire additional subcontractors and assign work accordingly, Create schedules for workers and subcontractor
- Maintain healthy and safe work environment by enforcing procedures and standards and complying with legal regulations
- Prevent interruptions and fines by enforcing and fulfilling codes
- Perform other duties as assigned by the Area Coordinator or RSRTF Project Manager

QUALIFICATIONS

- Diploma in technology; Civil engineering, Mining engineering, manufacturing engineering, Electrical, Maintenance engineering or any other relevant field.
- Minimum of five years in the construction industry, with some leadership experience
- The basic knowledge of science and mathematics is very essential.
- Ability to lead others in the completion of a schedule, budget guidelines, and customer requirements
- Great verbal and written communication skills
- Ability to work in an unpredictable situation
- Ability to multi task under pressure
- General knowledge and ability to learn about the location quickly. The rip over local knowledge helps in working on the site

SKILLS REQUIRED

- Strong Analytical and decision-making skills is important
- Strong leadership and team management skills
- Excellent organization and planning skills to prioritize and balance work
- Strong communication skills, with excellent written and spoken English.
- Ability to work in a team, coordinate and represent WR to partners and stakeholders.
- Ability and willingness to travel and work in rural areas where the project is implemented.
- Ability to provide technical support to staffs and stakeholder on implementation of the project.
- Ability to cope with stress, hardship, patience, flexibility, and willingness to work additional hours in order to meet tight deadlines.
