

EY Annual Tax Seminar on South Sudan Tax Legislation

**Palm Africa Hotel, Juba
5-7 June 2024**

The Government of the Republic of South Sudan is committed to achieving sustainable development and broad economic growth. The government's reliance on oil resources and the need to diversify South Sudan's revenue base have necessitated the implementation of various tax policies, administrative approaches, and technology-driven solutions such as E-Tax System, to improve revenue mobilization.

The recent Financial Act 2023/2024 and Taxation Act 2009 have introduced major changes in Personal Income Tax (PIT), Business Profit Tax (BPT), Withholding Tax, Sale tax and Excise Tax and other charges. Further tax changes are also expected to be passed through the upcoming Financial Act 2024/2025.

In recognition of the need to keep abreast with the unfolding changes, we have organized the 2024 Annual Tax Training Seminar on South Sudan Tax Legislation which will be held on Wednesday 5, Thursday, 6 and Friday 7, June 2024 (8.00am-5pm) at The Palm Africa Hotel, Juba.
