JOB SUMMARY

As a Hospital Radiologist, you will play a critical role in the diagnostic process by interpreting medical images to assist in patient care. This position involves using various imaging techniques, such as X-rays, CT scans, MRIs, and ultrasounds, to identify and diagnose medical conditions. A Hospital Radiologist collaborates with other healthcare professionals to provide accurate and timely diagnostic information, contributing to the overall patient care within the hospital.

Key Responsibilities

- Perform diagnostic imaging procedures, including X-rays and other assigned examinations.
- Prepare and position patients safely and appropriately for imaging procedures.
- Operate and maintain radiology equipment according to established standards.
- Ensure radiation safety protocols are strictly followed.
- Produce high-quality diagnostic images for interpretation by radiologists.
- Maintain accurate patient and imaging records.
- Provide professional, respectful, and compassionate care to patients.
- Report equipment faults and assist with routine quality-control procedures.

Requirements

- Diploma or Bachelor's degree in Radiologic Technology/Radiography or an equivalent qualification.
- Valid professional registration and license to practice.
- Good knowledge of radiographic procedures and radiation protection.
- Strong communication and interpersonal skills.
- Ability to work effectively with patients and healthcare professionals.
- Previous experience in a hospital or diagnostic imaging facility is an advantage.

How to Apply

Interested applicants are requested to send their **CV, cover letter, nationality ID card and copies of relevant academic and professional certificates** to hrgudelehospital@gmail.com or hand delivery to Gudele Hospital, Plot 1482, Gudele Block 5. Closing date: 8th September 2026.
