Health Specialist (2 Vacancies) – Short Term Consultancy

USAID/South Sudan Monitoring Evaluation and Learning Support (MELS) Activity, South Sudan

Company Profile:

MSI, a Tetra Tech Company, is a Washington, D.C. metro area international development firm with a 35-year history of delivering development results worldwide. Our core expertise is monitoring and evaluation (M&E), institutional development, public sector *management*, peace and stability, governance, and anti-corruption. MSI has implemented projects in 90 countries, such as Jordan, Kenya, Indonesia, Syria, Pakistan, Afghanistan, Ukraine, Colombia and Mexico. As one of the leading companies in our field, MSI has partnered with organizations across all sectors of international development to support clients ranging from large bilateral and multilateral donors such as USAID, the World Bank, and the United Nations Development Program to national and local governments, nongovernmental organizations (NGOs), think tanks, foundations, and universities. For more information on MSI, please visit our website at www.msiworldwide.com.

Project Summary:

The MELS activity is USAID/South Sudan's primary mechanism for monitoring, evaluation, learning, and adaptive management, supporting USAID's activities and programs within the Mission. MELS operates in a dynamic environment and offers USAID/South Sudan flexible and demand-driven technical, analytic, and advisory assistance. The primary objectives of MELS are to enhance collaboration, learning, and adaptive management (CLA), foster institutional memory, generate monitoring, evaluation, and learning outputs as needed, strengthen knowledge management and organizational learning (KMOL), improve organizational effectiveness and operational efficiency, and facilitate data-driven decision-making through the effective utilization of GIS and other innovative spatial analysis techniques.

****Please note: Only South Sudanese citizens are eligible for this position****

Position Summary:

The Health Specialist will provide technical advice, assistance, and guidance to the USAID/South Sudan Bureau of Humanitarian Affairs (BHA) and Implementing Partners on issues related to Health. S/he will play a significant role in verifying activities implemented under the USAID/Bureau of Humanitarian Affairs (BHA) South Sudan portfolio. The Health Specialist will also play an integral role in the drafting, editing, and overall quality control of Third-Party Monitoring (TPM) reports studies and other MELS reporting deliverables related to Health. The position reports directly to the Deputy TPM Manager. This is a Short-Term Technical Assistance (STTA) position based in Juba, South Sudan.

Responsibilities:

- Advise OHA and implementing partners on all technical aspects of Health, ensuring a practical approach to achieving milestones and suggesting ways to improve performance.
- Liaise with the Implementing Partners (IPs) to schedule site visits and access monitoring reports.
- Conduct monitoring visits to determine the extent to which OHA implementing partners have due diligence procedures in place to provide oversight.
- Support and provide oversight on data collection, compile performance reports, and convene adaptive learning sessions with the Mission as required.
- Make recommendations to address Health concerns and inform the OHA strategy for future emergency interventions in regions of South Sudan.
- Conduct Data Quality Assessments (DQAs) to verify the accuracy of data and needs assessments reported by implementing partners and other organizations.
- Provide day-to-day operational and program support to all Health monitoring activities.

- Review and provide technical information and consolidate reports from field monitors into succinct technical narrative reports.

Qualifications:

- Bachelor's degree required, advanced degree preferred, in a field relevant to Clinical Medicine, Nursing, or related studies.
- Minimum of three years of health programming experience, monitoring, and evaluation required.
- Knowledge of humanitarian principles, Sphere, and CHS Standards.
- Demonstrated ability to deliver written reports.
- Knowledge of and commitment to human rights.
- Experience conducting evaluations or surveys in Health; experience on past BHA evaluations or surveys is preferred.
- Experience using computer/data analysis software, including Microsoft Office Suite, Adobe Creative Suite, and database management systems.
- Demonstrated experience with emergency response, recovery, and disaster mitigation programming in post-conflict settings.
- Knowledge of the social, political, and economic factors affecting rural populations in South Sudan.
- Language capability relevant to conducting interviews with the ethnic groups targeted by the project's activities.
- Proven technical and management skills to manage the budget resources (funds and staff) for field monitoring visits and assist and support the team with field logistics and meeting arrangements.
- Experience in carrying out fieldwork in South Sudan preferred.
- Written and oral fluency in English is required.

The closing date for applications is **January 29, 2024**. Please note that due to the urgency of the position CVs will be reviewed on a rolling basis.

To apply please send email to SSMELS.Recruitment@msi-inc.com or visit MSI website www.msiworldwide.com; and hand deliver applications to our office at Goshen House Gate (1)

Reasonable Accommodations: MSI is dedicated to hiring an inclusive workforce. If you would like to request reasonable accommodations during the application process, please email MSI_Dept_HRRcruiting@tetratetechinc.onmicrosoft.com with "Reasonable Accommodations" in the title. Our recruitment team looks forward to engaging in an interactive process to provide reasonable accommodations for candidates.

Only candidates who have been selected for an interview will be contacted. No phone calls, please. MSI is an EEO/AA/ADA Veterans Employer.
