

CALL FOR EXPRESSION OF INTEREST

Who we are?

Help a Child is an international Christian humanitarian organization founded in the Netherlands in 1968. The organization provides a future for children in need, their family, and their entire community regardless of their social, political, religious, ethnic, or economic background. Help a Child has been operating in South Sudan for more than 10 years delivering vital humanitarian and child protection services to children and communities affected by conflicts and natural calamities. Help a Child implements through local and international partners but it also does direct implementation in some locations.

One of our key sustainability strategies is to strengthen the capacities of our implementing partners and community structures to enable them to serve the communities effectively. Based on this strategy, Help a Child conducted a rapid partner's staff capacity-building needs assessment in June 2022 to ascertain their areas of training needs relevant to their roles in their various organizations and the partners came up with the below list of training priorities out of 10 suggested fields. Based on these findings, Help a Child is currently soliciting technical support from professional consultancy firms with track records of work in similar fields listed below to conduct the training in the two locations of Juba and Wau. Experienced freelancers with substantial training experiences in these fields are also highly encouraged to apply. Find the details in the table below:
