Desireable

- Knowledge of the area, socio-culture and local language where the post is located as an added advantage
- Practical experience in cash transfer and seed fairs-based program implementation
- Experience in working with people affected by leprosy and people with disability

The Organisation

- We work worldwide for and with people suffering from the diseases of poverty. We fight leprosy, tuberculosis, and other marginalizing and stigmatizing diseases and their consequences.
- The core of our work is supporting medical and social projects. We focus on the needs of people with leprosy, tuberculosis, other marginalizing diseases, and disabilities.
- As specialists, we support medical and social assistance programs that enable those affected to live a dignified life and participate equally in the community.
- We support research to improve prevention, diagnostics and therapy, as well as medical-social rehabilitation for our target groups.
- We consider the needs, capacities, values, and quality standards of our project partners. We adhere to national and international standards and promote self-responsibility.
