MSF-FRANCE JOB ADVERTISEMENT

Médecins Sans Frontières/Doctors without Borders (MSF), founded in 1971, is an international humanitarian aid organization that provides emergency medical assistance to populations in danger in more than 70 Countries.

Médecins Sans Frontières – France (MSF-F) is looking for highly motivated and enthusiastic candidate for the below position in Aweil Office.

**To promote diversity and inclusion, we encourage female candidates to apply for this position.
Our organization is committed to gender balance and equal opportunities.**

POSITION: CLINICAL OFFICER -AWEIL
FIX TERM CONTRACT – (HEPATITIS E)

Purpose of position

Organizing and ensuring medical consultations to the target population providing treatment to patients within the scope of his/her medical competencies and referring them when appropriate, according to MSF protocols, procedures and the universal hygiene standards in order to guarantee quality and efficiency of the service provided.

MAIN ROLES AND RESPONSIBILITIES

Accountabilities

- Ensuring the implementation and standardization of MSF clinical policies, tools, and hygiene protocols in order to minimize clinical risks and to guarantee the quality of patient care management. Promoting and maintaining confidentiality regarding all patient cases and records
- Implementing diagnosis, prescription and prevention procedures that fall under the scope of his/her competencies applying medical knowledge, asking appropriate questions to patients and following protocols in force as well as using laboratory services, when necessary, in order to ensure a correct implementation of the medical treatments and to refer patients when appropriate.
- Participating in the planning and supervision, in close coordination with other supervisors, the HR processes (sizing, staff shifts, recruitment, training, evaluation, development and communication) of the team in order to ensure both the sizing and the amount of knowledge required, improve people triage capabilities, their motivation and commitment and their active participation in teaching the targeted population on therapeutic and preventive protocols.
- Ensuring that all staff using medical devices are qualified and trained. Ensuring cleaning and minor maintenance tasks are performed according to the protocols. Reporting any malfunction to the project biomedical service. List item:

- In cases of emergency, carrying out first aid care according to protocols in order to reduce mortality rates
 - Recording in the individual patient's card and registration books, all performed medical activities (drugs prescribed, lab results, vaccination status, epidemiological activity, doses, etc.) keeping data traceability in order to ensure patients treatment continuity.
 - Participating in data collection and reporting when required
 - Knowing and implementing Patient Therapeutic Education (PTE), i.e. keeping contact with all patients, providing them information regarding their health state and responding to their questions.
- Knowing and promoting the proper application of Post Exposure Prophylaxis (PEP) Kit and Sexually Gender Based Violence (SGBV) protocol.

MSF Section/Context Specific Accountabilities

- Supporting hospital-based surveillance of hepatitis E using a standardized Case Report Form
- Reinforcing the use of clinical case definitions for hepatitis E by:
 - Attending standing meetings with hospital staff to periodically remind staff of the clinical case definition
 - Monitoring hospital wards to ensure all patients with acute jaundice have complete Case Report Forms and have been tested with rapid diagnostic tests;
 - Monitoring linelist data to ensure all suspected hepatitis E cases with Case Report Forms are included in the linelist.
- Recruiting all suspected hepatitis E patients identified in the hospital for a research study and among interested patients collecting and documenting informed consent
- Recruiting and consenting non-jaundiced pregnant women for an epidemiologic research study
- Collecting blood specimens for diagnostic evaluation, including dried blood spots
- Coordinating with field surveyors to conduct in-person or telephone based follow-up visits with suspected hepatitis E cases
- Meeting weekly with study coordinator to provide updates on surveillance and recruitment
- Summarizing study recruitment and any challenges experienced in written communication to study coordinator and principal investigators

Requirements

Education	Essential: clinical medicine diploma
Experience	Desirable: At least one year's experience in conducting hospital-based research or one year's previous experience in clinical supervision
