RFQ Ref No: 718/25/IPPASJ

Request for Quotations (RFQ) for Supply and Delivery of Five (5) Unit of Solar Powered Water Pump 3” inches (Surface), Power: 1 - 15 hp (Medium Pressure) for establishment of shared Water Infrastructures to support Project Participants in Panyikang and Fashoda Counties.

1. Background; Catholic Agency for Overseas Development (CAFOD) is the official aid and development agency of Catholic Churches in England and Wales. Trocaire is the official aid and development agency of Catholic Churches in Ireland. In April 2015, CAFOD South Sudan merged with its Irish sister agency, Trocaire South Sudan, integrating their programmes under CAFOD and Trocaire in Partnership (CTP). This merger allowed for pooling of knowledge and resources, reducing programmatic overlap and overhead costs. As members of the Caritas network, CTP champions localisation and works exclusively through partnership with church and non-church national organisations. CTP provide funding as well as ongoing technical support, capacity building and accompaniment to partners, to ensure sustainable delivery of programmes as well as adherence to quality standards.

CAFOD remains the lead agency, maintaining its programmatic approach, as well as its financial and administrative systems and procedures.

CTP through its partnership and localisation Lense takes a multisector integrated approach to programming. CTP programming approach has involved over the years from Rapid Humanitarian Response to Resilience Approach linked to community graduation, market-based approaches, and private sector engagement/participation. Taking cognisance of the complexity of the South Sudan context, CTP has also continued to work with local partners and building their capacity on effective and timely emergency response as and when they occur especially in the current operational areas.
