Contract Type: Fixed Term
Number of post: 01

Key Responsibilities:

- Support in the implementation of soft WASH interventions under the project _ Public Health Promotion, Community Engagement and mobilization, awareness raising on Key Public Health risks and behaviour change.
- Carry out assessments on the status of existing WASH community structure, water utilities to inform and ensure evidence-based interventions
- Conduct project evaluation and case studies in close consultation with MEAL
- To gather all the available information on targeted population, institutions, offices, and service points that require water for the proposed intervention.
- Undertake WASH-Nutrition sensitization and communication and community engagement interventions
- Contribute to proposal and budget development for specific technical elements
- Work in close collaboration with other members of the team to ensure an integrated approach to meet the needs of a population (EFSL, WASH, Protection...).
- Coordinate with other WASH sector actors in designing, implementing, and reporting Public Health Promotion activities
- Work closely with the Public Health Promotion Team throughout the planning, design and implementation stages of the WASH Programme
- Actively contribute towards planning and proposal writing to provide clear objectives and establish indicators for monitoring and evaluating the programme.
- Ensure that work aims to meet Minimum Standards and adheres to Oxfam's emergency guidelines and protocols and, enhance the WASH capacity of local partners to increase the resilience of the target communities
- Support WASH technical coordination and relations with the local authorities, WASH Cluster and other partners.

Programme Implementation

- Prepare PHP activities implementation plans, training and awareness, IEC material templates in close consultation with the technical leads.
- Prepare estimates, cost reports, forecasts, schedules, and monitoring project budget.
- Design, develop plans, supervise, and monitor implementation of the project activities closely with the local partners, local authorities and selected contractors/suppliers.
- Produce realistic work plans, as well as procurement plans for all PHP activities ensuring that deadlines are in line with donor timeframes.
- Ensure that target Communities, water utilities, local authorities and partners are engaged and consulted during the entire project
- Establish timely and clear logistic requirements for the hygiene and sanitation programme. This may require local purchasing in liaison with the logistics team
- Ensure that all programmes take gender, disabilities, and HIV issues fully into account. This includes the introduction of mechanisms to enable women and less abled people to participate in decision making around sanitation work.
- Ensure that all programme activities are in line with minimum requirement laid out in OGB Minimum requirements for PHP in emergencies and Sphere standards

Reporting, Communications & Coordination

- Provide regular verbal and written reports to the WASH Team Leader, frequency of such reports to be agreed directly depending upon the nature and scale of emergency.
- Liaise closely with all other officers within the other departments (including PHP and EFSL) to ensure a cohesive and integrated approach is achieved.
- Represent Oxfam in meetings, community consultations and other forum as directed by line manager.

Staff Management

- Provide day to day management of the PHP teams, casuals where necessary including performance management, recruitment, spacing team leave, and any other HR function involved in team management.
- Assess PHP team capacity level and suggest areas of improvement to the WASH Team Leader who will support in devising clear and concise capacity training schedules accordingly.
- Provide additional support to other humanitarian programmes as directed by Programme Manager and Technical Coordinator. This may include capacity building and training in other programme offices and possible field visits on specific technical support and training to local partners.

SKILLS AND COMPETENCE:

Essential

- **RELEVANT** Undergraduate degree qualification in any of the following WASH disciplines: Public/Environmental/Community Health, Community Development.
- At least 3 years of **RELEVANT** experience as a Public Health Officer working at field level in South Sudan.
