Tasks:

Programme Implementation and Quality (50%)

- Plan execution of the assigned activities in line with projects general work plans in close coordination with other program and operations staff.
- Efficiently utilize the budget allocated for the assigned activities in line with the work plans, and support Health Specialist in the spending plan monitoring for the assigned budget lines; propose corrective measures in case of under or over-spending.
- Contribute to development of appropriate targeting criteria and mechanisms to ensure the needs of identified vulnerable groups are met; conduct or contribute to beneficiary selection and verification process.
- Liaison and maintain links with community representatives, conduct community mobilisation, engage, consistently with project participants and other relevant stakeholders; ensure participation of communities and projects participants in designs and maintenance of the health and lccm activities
- Ensure smooth delivery of health technical outcomes through daily implementation of the planned activities, in line with national and international technical and humanitarian standards, guidelines and best practices (e.g. Sphere standards, International Humanitarian Law, Do No Harm, Core Humanitarian Standards, Humanitarian inclusion standards for older people and people with disabilities) and considering lessons learned to achieve the best possible outcome while complying with donors' requirements and Johanniter internal procedures and program standards.

- Contribute to development of training and awareness raising materials including materials for community sensitization.
- Conduct or support technical capacity building sessions and workshops for assisted communities; conduct or support distributions of procured items and provide required support to the project participants in line with the work plan.
- Monitor progress of the assigned interventions' indicators against programmatic and budgetary targets and ensure the targets are achieved on time and in line with the projects documentation.
- Establish modalities to ensure the sustainability of the strategy and extended use by beneficiaries, support ownership of local communities and contribute to development of exit strategies and handover to individuals and communities.

Monitoring, Evaluation, Accountability, Learning and Reporting (25%)

- Regular data collection, verification, record keeping, storage and management of an up-to-date activity level data and information used for measuring activity progress, reporting or as a reference in new proposals.
- Providing accurate and complete data and information as part of weekly and monthly updates on activity progress showing achievements against planned activities and inputs to project progress reports adhering to Johanniter and donor requirements and submit to line manager or other stakeholders as requested by line manager
- Work closely with PMEAL team and line manager to support development and maintenance of community feedback mechanisms accessible by the most vulnerable individuals, appropriate to safeguard sensitive personal data.
- Prepare and execute action plans responding to gaps and areas of concern identified through monitoring or community feedback mechanism, as part of organizational learning and adaptive programming.
- Support knowledge management, document project information, lessons learned, success stories, case studies and pictures.
- Contribute to ensuring compliance to internal, donor and governmental requirements, systems and processes during the planning and implementation
- Actively promote Prevention from Sexual Exploitation and Abuse (PSEA) standards within Johanniter and amongst its beneficiaries

Internal Collaboration and Coordination (10%)

- Closely collaborate with other Technical Officers within the same or from other sectors or sub-sectors (e.g. WASH, nutrition; protection; food security and livelihoods) to ensure internal coordination contributing to successful implementation of multisector interventions, high impact and creating synergies.
- Closely coordinate the implementation and collaborate with Johanniter operations departments and units (i.e. logistics, HR, administration, finance) to ensure smooth implementation and timely identification and addressing challenges.
- Contribute to timely preparation and execution of procurement plans through providing quality and technical specifications of all health-specific supplies required.
- In close coordination with admin and logistic units ensure all expenditures are tracked through appropriate record keeping and adherence to internal and donor administrative, financial and procurement guidelines as procedures.
- Serve as security focal point in the field sites, when requested

Human Resources (10%)

- Support capacity development of junior technical staff, i.e. ICCM/Health Assistants; Boma Health Supervisors, Community Based Drug Distributors, Community Health Workers

through the provision of training and technical support and guidance, on the job training, mentorship and coaching to ensure they can implement assigned activities and accomplish quality results.

- Day to day management and supervision of staff under the position holder's supervision and indirect supervision of the network of ICCM/health-nutrition.
- Performance management and evaluation of performance objectives of the assigned staff.

External Coordination, Partnership and Representation (10%)

- Contribute to close collaboration and coordination with relevant external stakeholders including community representatives and community based organisations, local authorities and government bodies (e.g. the State Ministry of Health and Nutrition, County Nutrition Departments), NGOs (e.g. Health and nutrition cluster partners) and clusters at the sub-regional/county level to guarantee smooth implementation of activities and efficient information exchange.
- Support promotion and maintaining good partnership with external stakeholders in the spirit of respect, equity, transparency and complementarity.
- Attend cluster and coordination meetings and other relevant engagements as assigned by the line manager and update the rest of the team on the outcomes of such meetings.

Programme Development (5%)

- Contribute to identification of Johanniter's geographical areas of interest according to humanitarian context, vulnerable populations' needs and national and donors' priorities.
- Assessing needs and gaps in access to and provision of ICCM/health services at the community and facility level in close coordination with communities, government representatives and other actors; proposing adequate interventions to respond to the needs.
- Support fundraising initiatives through contribution to proposal development and identification and design of new interventions and programmes.
