POSITION: Project Officer - Solid Waste Management

LOCATION: Juba

STARTING DATE: ASAP

Tearfund is a Christian international relief and development agency working globally to end poverty and injustice, and to restore dignity and hope in some of the world's poorest communities.

Our vision is to see all people freed from poverty, living transformed lives and reaching their God –given potential by:

- Envisioning churches to embrace their calling to address poverty and injustice
- Developing communities and building resilience, sustainably and holistically
- Changing unjust policies and practices to deliver justice for poor communities
- Enabling communities affected by disaster and conflict to recover quickly and be better equipped to face future hazards.

We are committed to developing experts who are inspired, resourceful, courageous, compassionate and equipped. If you are interested in working with us, take time to look around our website and discover more about our unique organisation.

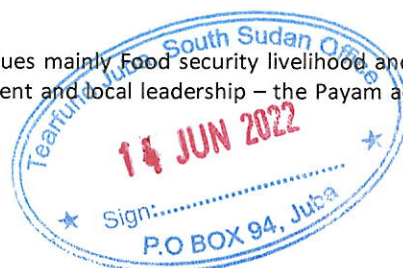

Tearfund South Sudan Programme is looking for a suitable **South Sudanese** candidate to fill in the position of **Project Officer - Solid Waste Management** to be based in **Juba**.

1. JOB OVERVIEW

- As part of the Program team in Juba, the responsibilities include facilitating a baseline study to better understand the context that will inform a bespoke response to the problem of waste management in Juba. Targeted beneficiaries will be trained on strategies to recover plastic bottles and other plastic materials. Tearfund will broker relationships and linkages between private sector companies with micro-entrepreneur plastic collectors sector to ensure transformation of plastic waste into paving tiles commercial products. Additional support will be given to ensure the micro-entrepreneur plastic collectors have marketing skills for the commercial waste management by products.
- Support capacity building of waste collectors, and linkages with public health and environmental health sensitisation and awareness creation will help to ensure that there is transfer of skills and capacity beyond the project implementation period. By delivering triple wins for affected communities living in abject poverty in Juba through improved environment (including reductions in plastics within water bodies in Juba), improved health and wellbeing, and improved livelihoods and income generation capacity, the project will provide durable and innovative solutions to the problem of plastic waste management in South Sudan. Working with and through local government structures and the local municipality will create sustainable solutions to plastic waste management health and environmental threats that affect poor and underserved communities in Juba.
- Lead the project to bring together the unemployed women and youth population from across the ethnic and political divide, and empower them with social cohesion skills through the local faith actors. Working together on waste management and livelihoods issues will foster relationships among the women and youth in Juba County.

2. POSITION IN THE ORGANIZATION

- Grade: B1
