## **Terms of Reference Engagement of consultant Training ADRA staff VSLA activities**

### **Background:**

The Adventist Development and Relief Agency (ADRA) is the global humanitarian organization of the Seventh-day Adventist Church which has been in operation for over 60 years. Through an international network, ADRA delivers relief and development assistance to individuals in more than 130 countries—regardless of their ethnicity, political affiliation, or religious association. By partnering with communities, organizations, and governments, ADRA is able to improve the quality of life of millions through 9 impact areas, namely: Livelihoods and Agriculture; Children; WASH, Community Health; Disaster Response; Economic Growth; Hunger and Nutrition; Social Justice and Gender Equity.

For over 37 years, ADRA South Sudan has been making a difference in individual's lives in one of the most difficult contexts in the world in both development and emergency contexts. In South Sudan, ADRA implements programmes in six thematic programme areas of Education; Primary Health Care; Emergency Response and integrated programming including livelihoods and agriculture; HIV/AIDS; WASH; economic empowerment and gender/protection.

### **Programme Description:**

ADRA South Sudan works in four states across South Sudan (Upper Nile, Warrap, Eastern Equatoria and Western Equatoria). The agency works in both humanitarian and development sectors in four thematic areas namely, Education, Food Security and Livelihood, Emergency response/protection, Health and WASH. ADRA has been implementing projects, within these sectors, in Upper Nile for over a decade.

Currently, ADRA South Sudan implements a multiyear Education in Emergency program (EiEMY), which is an intervention ongoing till the end of 2023, funded by the Norwegian government (NORAD), through ADRA South Sudan's partner ADRA Norway. The overall objective of the project is that **"Conflict-affected children and their families in Nasir and Maiwut Counties are equipped with the attitudes and skills that will help them access opportunities and achieve their potential"**. The project activities are centred around 22 schools and their communities within Nasir and Maiwut Counties in Upper Nile State, South Sudan.

One of the outputs of the program is related to community support: "Output 4.2 Communities demonstrate increased support to educational institutions". To help increase the capacity of the communities, to support educational institutions, there is a need to: **"A4.2.2: Set up parent groups for REFLECT learning, literacy circles and VSLAs"**. Consultants will be engaged to do Training of Trainers (ToT) to facilitate this output, and all project staff will be trained for 5 days and provide
