HEALTHNET TPO

Position: Anaesthetist	Duty Station: Mother Tereza Hospital
Report to: Lot18 Program Manager	Duration: 4 month with possibility of Extension based on funding
	Number of Position: One(1).

HNTPO is looking for a compassionate anesthetist for Mother Tereza Hospital to be responsible for administering the appropriate anesthetics before medical procedures. The duties of an anesthetist include assessing the health of a patient before surgery, monitoring patients' well-being post-surgery, and providing assistance in emergencies

About us:

Health Works also known as HealthNet TPO, is a knowledge-driven, non-profit international organization that works in areas disrupted by war, disasters and poverty. Working together with local populations, it works on rehabilitation and sustainable health care development. We aim to contribute to improve the overall health situation and support the development of systems for the provision of health care. Health Works contributes to community mobilization as a conditional necessity in populations recovering from long-time warfare. In doing so, we aspire to include and build the capacity of local organizations, communities and authorities. HealthNet TPO strives for developing evidence-based interventions to strengthen the health of populations in distress.

Your role:

Under the supervision of the MTH Coordinator, The Anaesthetist will ensure quality and relevance of HealthNet TPO's service quality interventions in Mother Theresa Hospital in accordance with the prescribed guidelines of the National Ministry of Health of South Sudan, and coordinate activities in collaboration with the management of the MTH.

Main Responsibilities:

- Evaluating the patients' readiness before surgery.
- Preparing anesthetic plans.
- Initiating anesthesia in the operating room.
- Monitoring patients during medical procedures.
- Reversing anesthesia and managing post-operative pain.
- Performing medical administrative tasks.
- Training and supervising junior staff
- Any other duty as assigned by the line manager
- Examine patients to ensure they are prepared for surgery
- Monitor vital signs during surgery
- Manage medical problems if they occur during surgery
