Hai Kuwait Residential Area near Rift Valley Research Institute,

P.O Box Private bag – Juba South Sudan. Email: info@chadoss.org | +211 928 855 865

POSITION SUMMARY.

The Project engineer will be responsible of construction 6 blocks of Temporary Learning Space (TLS) in schools at Dhuording, Khoat/Zelzek and Maker Payams in Nasir County, Upper Nile state. The engineer will oversee and ensure construction is done promptly and up to the set standard.

Construction Engineer Roles and Responsibilities:

- Participate in the planning, designing and managing the successful construction of the TLS project in Nasir County;
- Collaborate with the architect, constructor and CHADO to develop project plan and specification including conducting visibility study of the area, cost estimates and risk assessments to determine project viability;
- Maintain compliance with the safety-assurance plan so that work is accomplished in an environmentally sound manner using safe work practices;
- Participate in engineering package reviews during the select, define and execute phases of projects and provide constructive input to the design team;
- Support the off-site project leaders through the stage-gated process of projects;
- Encourage construction and operations personnel to review design packages early in the course of projects to eliminate rework and optimize construction;
- Anticipate and resolve problems encountered in the field to eliminate costly rework or retesting;
- Work with the community mobilizer to engage the community in project construction and participation.
- Provide input into the scheduling of projects to meet CHADOs required deadline and maintain construction resources to acceptable levels;
- Monitor progress to ensure scheduling milestones are understood and are being met;
- Coordinate between the construction contractor and the project led to resolve field discrepancies in design packages and material delays;
- Ensure equipment and manpower resources are being used efficiently;
- Review contractor work performance and project status updates;

DELIVERABLES:

- Ability to work with minimal supervision
- Ability to work comfortably with the community

- Deliver status reports as requested to the Project coordinator;
- Create and submit weekly project narratives to the Project Manager;
- Complete the construction portion of the project on schedule, within budget, meeting safety requirements and with appropriate quality;
- Develop plan for construction interface with on-going operations;
- Develop the Construction Plan and provide to the Project coordinator to incorporate into the Project Execution Plan.

EXPERIENCE & KNOWLEDGE:

To be considered for the role of Construction Engineer, applicants must have the following qualifications:

- A minimum of a bachelor's degree in an engineering discipline or equivalent technical experience from recognized institution;
- Willing to relocate to Nasir County for the project duration;
- Experience in a construction management role;
- Minimum of 8 years of construction experience in mechanical, civil and/or structural engineering disciplines;
- Demonstrated knowledge of cost control, cost reporting and project schedule management;
- Demonstrated track record of multi-project coordination with projects in varying phases of completion;

Send your CV and Cover letter to communityho@yahoo.com, CC To ann.kueth@chadossd.org and finance@chadossd.org Documents can be hand delivered to: CHADO HEAD OFFICE Hai-Kuwait Residential area behind Hai-Kuwait hospital, near Rift Valley institute. Call: +211 929 491 408 for direction

Application Should be sent on or by 8th August 2023. Only Short-listed candidates will be contacted. Due to the urgency of the position, selection will be done on the rolling basis.
