MSF-FRANCE JOB ADVERTISEMENT

Médecins Sans Frontières/Doctors without Borders (MSF), founded in 1971, is an international humanitarian aid organization that provides emergency medical assistance to populations in danger in more than 70 Countries.

To promote diversity and inclusion, we encourage female candidates to apply for this position. Our organization is committed to gender balance and equal opportunities

POSITION: TB Implementer - Intersectional

POSITION LOCATION: Juba (with frequent travel to the Projects)

TYPE OF CONTRACT: Fixed Term Work Contract (12 months)

MAIN ROLES AND RESPONSIBILITIES

PREPARATIONS

In collaboration with the project teams, the TB Implementation Manager will carry out an evaluation including:

- A mapping of current practices regarding the diagnosis, treatment and prevention of tuberculosis in children in the MSF project and in the wider country context relevant to the project for MSF, the Ministry of Health/NTP and other key implementing partners,
- identification of obstacles to the implementation of WHO recommendations at both MSF and Ministry of Health/NTP levels, and identification of solutions to overcome these obstacles,
- identification of routine tuberculosis indicators already monitored by the MSF project
- identification of laboratory and medical needs and assist in the medical order

In collaboration with project teams, develop an action plan for the implementation and follow-up of WHO recommendations, including:

- a timetable and assessment of the resources and tools required for successful deployment
- a local advocacy plan.
- Support tools and adjustments to existing ones

TRAINING

After identifying additional training needs:

- facilitation of clinical training on treatment decision algorithms and TB treatment in children, including short-course treatment for non-severe TB (short classroom and bedside training)
- Facilitate paediatric XRay training (if possible be trained to deliver this, otherwise facilitate others to give training)

Supervision of implementation and feedback on previous TACTiC-related training and the training provided during the visit, monitoring of results (adherence to algorithms and proper use, patient compliance, etc.) and impact (link with programmatic indicators to be developed for the program (for patients in the study, indicators are already identified, so we need to develop some for patients who are

M. Y. S.

not in the study: number of patients diagnosed, treated, followed-up, etc.). Identification of adjustment measures, if necessary.

IMPLEMENTATION

Support project teams by ensuring that the necessary resources and processes are in place.

Support for project teams to ensure community acceptance (local and regional health authorities and local community)

Support for case management and case discussions.

FOLLOW-UP

In collaboration with projects and missions, put in place tools and procedures to ensure the sustainability of the implementation of the new recommendations (M&E tools and processes, integration into clinical supervision activities).

Ensure the mission's ownership of the intervention and its ability to brief and train newcomers to the project

DELIVERABLES

- Report documenting progress in implementing WHO recommendations in outcome and impact analysis, lessons learned and proposals/recommendations for scaling up in the country.
- Monitoring system validated by the mission with associated tools either finalized or in the process of being finalized
- A synthetic evaluation report including a mapping of practices in the MSF project, identification of obstacles to implementation and proposals for overcoming them.
- An action plan to implement and monitor WHO recommendations
- Algorithm training material and support tools

Essential Criteria

Medical doctor with extensive proven experience in TB diagnosis and management
Experience in delivering effective training
Experience of working with MSF and with/in MOH
Experience in implementing new medical activities
Excellent written and oral communication skills
Willing to work flexibly in multiple locations
Able to formulate a workplan and prioritise workload

Desirable Criteria

Experience in MSF M+E tools, eg standard indicators, DHIS-2
Advocacy experience
