

JOB ADVERT

Position: County Coordinator	Duty Stations: Gogrial East, Gogrial West and Twic County
Reports to: Lot Manager	Number of Positions: 3 (Three)
	Expected Start Date: As soon as Possible

HealthNet TPO, with global headquarters in Netherlands, is a knowledge-driven, non-profit international organization that works in areas disrupted by war, disasters and poverty. Working together with local populations, it prioritizes rehabilitation and sustainable health care development. We aim to contribute to improve the overall health situation and support the development of systems for the provision of health care. HealthNet TPO contributes to community mobilization as a conditional necessity in populations recovering from long-time warfare. In doing so, we aspire to include and build the capacity of local organizations, communities and authorities. HealthNet TPO strives for developing evidence-based interventions to strengthen the health of populations in distress.

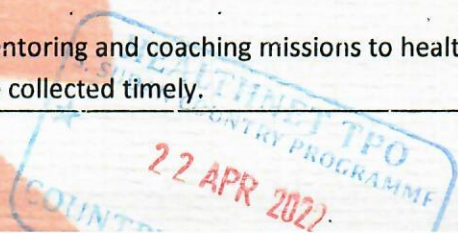

With funding from HPF, HealthNet TPO in Consortium with Impact Health Organisation (IHO) will support CHDs of Gogrial East, Gogrial West and Twic Counties in delivering of essential health care services across supported health facilities and in the communities of the three Counties.

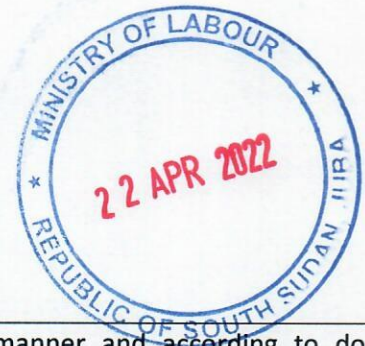

Your role:

The County Coordinator will provide support to, and coordinate with the CHD of the County in an integral manner, including supervision of, and managing Primary Health Care Services provided in the Health Facilities within the County in collaboration with Impact Health Organisation and other stakeholders in the County. The implementation of this project will revolve around the health facility's catchment areas, the communities that they serve and through the coordination of the County Health Department and the State Ministry of Health:

Main Responsibilities:

- Work with the CHD to develop and oversee the implementation of the project's work plan, ensuring completion of project's deliverables.
- Provide technical support on delivering the key elements of the Basic package of health and nutrition services at the County
- Develop the capacity of the County Health Department to plan, monitor and coordinate health care service delivery.
- Train and Mentor CHD on effective project planning and management methodologies and quality health service delivery.
- Organise and participate in joint supportive supervisions, mentoring and coaching missions to health facilities
- Ensure reports from all health facilities within the county are collected timely.

JOB ADVERT

- Ensure accurate quality narrative reports are submitted in a timely manner and according to donor requirements.
- Ensure HIMS is implemented at all levels of Health Services delivery. Especially ensuring health data from your county is submitted timely to the SMOH.
- Attend county coordination meeting.
- Ensure all health facilities have staff attendance registers and duty rosters.
- Undertake pro-active on the job training and Health facilities staff development.
- Create an enabling environment for dialogue, information sharing, partnerships and, and cooperation between CBOs, Government structures and target communities when delivering project interventions.
- Effectively represent HNTPO when accompanying visitors, e.g. donor and/or Government representatives, and other delegations to the Health Facilities.
- Track the performance of the project activities and outputs against expected results per facility and adjust implementation processes to ensure the project is progressing towards the intended outcomes
- Ensure SOP and quality assurance practices across health sector resulting into reduction in epidemiological cases.
- Any other duty will be assigned by the line manager

PERSON SPECIFICATION

- Medical Degree or at least Diploma in Clinical Medicine and Public Health with 3 years experiences in management of health and Nutrition services.
- Extensive relevant experience in supporting projects on Maternal, New-born and Child health or general primary health care.
- Relevant professional experience in managing and implementing of similar related program in South Sudan
- Fluency in English and Arabic and ability to speak local language would be an added advantage
- Proficiency in MS Excel, power point and other MS Office products

You have/ are:

- Flexible and organized to work in a culturally diverse environment, previous experience of working in the mentioned counties is an added advantage
- Team player, able to listen and motivate, excellent planning, supervisory and advisory skills
- Proven training and health education skills, proven ability to teach/pass knowledge to staff
- Excellent organizational development skills with attention to detail
- Able to work in a culturally diverse environment and under minimal supervision
- Able to work under pressure, occasional flexibility in terms of working off hours
- Ability to work with teams remotely and with high sensitivity to cultural and social diversity

JOB ADVERT

We offer:

- An opportunity to use your expertise and contribute to our mission to improve the health and well-being of people living in fragile states. A culturally diverse working environment, A full-time position (40 hours per week)
