Organizational Background

International Medical Corps is a global, humanitarian, nonprofit organization dedicated to saving lives and relieving suffering through health care training and relief and development programs. Established in 1984 by volunteer doctors and nurses, International Medical Corps is a private, voluntary, nonpolitical, nonsectarian organization. Its mission is to improve the quality of life through health interventions and related activities that build local capacity in underserved communities worldwide. By offering training and health care to local populations and medical assistance to people at highest risk, and with the flexibility to respond rapidly to emergency situations, International Medical Corps rehabilitates devastated health care systems and helps bring them back to self-reliance.

Essential Job duties / Scope of Work:

- Conduct static vaccination session in the primary health care facility as scheduled and holding outreach activity in the community.
- Administer vaccine correctly in accordance with guideline, while maintaining strict aseptic techniques.
- Report and record measles cases and conduct immunization, mopping up.

- Liaise closely with health worker within health facility, health promoter, CHWs, to avoid missed opportunity for immunisation of children to be followed up through defaulters tracing.
- Maintain accurate records/charts of monitoring coverage of patient in the clinic and target population.
- Provide counselling to the care givers on the preventative and curative health aspect of the vaccine/vaccination schedules.
- Prepare monthly statistical report, vaccine consumption/wastage rate and submit in timely manner.
- Maintain accurate EPI records including daily and permanent register, missed case and defaulter.
