### **FOR THE CASE HUMAN AND VETERINARY MEDICINES**

#### **1. License, a Business Permit and or Insurance**

A vendor must have a valid license with South Sudan Food and Drugs Authority (FDA) and must also have a business permit from the City Council. Nonetheless, the vendor should have insurance from a reputable insurance company to guard against any impending losses or damages.

#### **2. Storage condition and space:**

The vendor should have a good storage condition with good ventilation and should have enough storage capacity. Once selected, it should be able to source its supplies from its stores. This will strictly be verified by the IRW Health Officer before a contract is issued.

### 3. Transportation Mechanism

The vendor should have a clear transportation mechanism (air, road or water) from where it orders or sources its medical supplies to their main store and possibly to IRW offices where the supplies would need to be delivered.

### 4. Source of Manufacturing:

Manufacturing companies of drugs is a very crucial selection criterion for the vendors. For instance, Paracetamol manufactured by company A may be more potent and efficacious than that manufactured from company B. Vendors that transport their medical supplies from reputable manufacturing companies and from specific countries will have advantage.

### 5. Expiry Date Duration:

Vendors with drugs whose expiry date is 18 months or more shall be prioritized.

### 6. Experience

Vendors who have been in the business for 3 years or more supplying drugs to Health Pooled Fund Implementing agencies or other INGO and WHO will be of advantage.
