Introduction

Cordaid is a Dutch, international non-governmental organization which combines 100 years of experience and expertise in emergency aid and structural poverty eradication. Cordaid believes in a world without poverty and exclusion. We strive for a just and sustainable society where every person counts. We stand for knowledge and talent sharing between North and South, between farmers and businesses, between activists and policymakers. Where poverty, conflict and exclusion tear up societies, we connect people and communities. We also stand for professionalism, expertise, and solidarity across borders, to make a difference where it is most needed. Together with more than 600 partner organizations in Africa, Asia, the Middle East and Latin America we structurally improve the living conditions of the poorest and most excluded populations - the bottom billion.

Cordaid has been active in South Sudan for more than 20 years, with a strong focus on civil society capacity-building. Currently it has programs in the area of Emergency Response, DRR, Health, Food Security, Security & Justice, Women Leadership and Investments.

Presently, Cordaid is expanding its program in different parts of the country. For that purpose, additional capacity is required. Therefore, Cordaid South Sudan would like to recruit for the position of **Pediatrician as detailed below.**

Position: Pediatrician

Based Location: Wau

Number of positions: One

Report to lines

The Pediatrician reports to the Hospital Coordinator

Purpose of the Job

The Paediatrician is in charge of the department in which he/she is a specialist in the hospital and will manage all matters related to the department and be a member of the Hospital Technical Management Team

and also support the state to build the capacity of health care workers in the hospital and other hospitals in the state.

The role will also involve significant capacity building (in house training of residents and medical students) tasks in the hospital and possibly offer lectures within the Health Training Institute in Wau.

KEY RESPONSIBILITY

1. Ensure medical services of high and consistent quality in the departments one will be in charge of and ensure all supplies and equipment are available.
2. Take part on the senior management meetings of the hospital and ensure the departments concerns are dealt with.
3. Take part in grand rounds and CMEs for the facility staff and ensure that the capacity of the staff in the department is improved in order to improve quality of care.
4. Monitor the activities of the department; both technically and administratively while ensuring high quality services are rendered. Represent the department in various inter-departmental meetings.
5. Assist in any administrative tasks at the hospital if delegated by the hospital Medical director
6. Participate in the hospital quality review and audit sessions and organize departmental audit and review meetings
7. Adhere to, supervise, enforce that all department staff maintain all medical safety procedures and apply the highest hygienic standards
8. Remains accountable for the overall performance of the department and ensures that staff operating in the department are equally accountable for their time and services.
9. Performing additional tasks or duties as assigned during the period of employment.
10. Plan and ensure adequate (24 hour including night shifts) coverage of the department

Minimum (Essential) Requirements

1. Bachelor of Medicine and Surgery from a recognized University by the Government of South Sudan or in your Country of origin.
2. Master's degree in a relevant specialization (Paediatrics and child health)
3. Ability to plan and facilitate clinical trainings and grand rounds on a regular basis (daily or weekly depending on staffing levels at the department)
4. A good understanding and experience of working with County Health Officials, State Ministry Officials, Donors and Un agencies
5. Previous experience of working in South Sudan hospitals is considered an advantage
6. Ability to work in resource constrained regions.
7. Have an understanding of the broad range of medical disaster management.
8. Must have the ability to effectively communicate orally and in writing. Ability to generate departmental reports (both narrative and analysed data)
