

JOB OPPORTUNITY

Job Title: Senior Clinical Service Coordinator
Locations: Juba head Office
Contract Type: Regular Contract
Reporting to: Senior Technical Manager
Number of Posts: 1 Position
Application Deadline: April 3, 2026

Project Description and Summary of Role PROJECT AND ROLE SUMMARY

The Advancing HIV & AIDS Epidemic Control (AHEC) Activity is a U.S. Department of State-funded initiative led by IntraHealth International to strengthen HIV prevention, care, and treatment services across South Sudan. The project emphasizes community-led responses, strategic case finding, retention in care, and the delivery of high-quality, client-centered HIV services.

The Senior Clinical Coordinator provides strategic clinical leadership, technical oversight, quality improvement guidance, and coordination across AHEC-supported health facilities. The role leads the planning, implementation, and monitoring of comprehensive HIV services, with a focus on:

KEY TECHNICAL FOCUS AREAS

- Scale-up of targeted and index HIV testing services
- ART optimization and treatment continuity
- Retention in care and viral load suppression
- PMTCT and Early Infant Diagnosis (EID) services
- TB/HIV integration
- Advanced HIV Disease (AHD) management

Key Responsibilities / Essential Functions

1. Clinical Leadership and Service Delivery

- Provide technical guidance for achieving project targets in HIV Prevention, care and Treatment (HTS, PMTCT, PrEP for PBFM, HIV/TB, HIV care and treatment and viral load) and integration of services.
- Implement differentiated service delivery models (e.g., community-based ART distribution) to improve retention and handle advanced HIV disease.

- Ensure HIV testing services (HTS) including HIV self-testing, PrEP initiation, follow-up, and continuation are conducted according to MOH and PEPFAR guidelines.

2. PrEP Implementation for pregnant and breastfeeding mothers

- Lead the implementation of PrEP targeting PBFM in all AHEC supported health facilities and document lessons learned
- Integrate PrEP delivery into community-based outreach services for PBFM
- Engage key stakeholders to support PrEP demand creation, adherence, and retention.

3. Coordination and Program Management

- Provide leadership and technical oversight for health facilities supported by AHEC.
- Ensure HIV prevention Care and treatment site-level implementation remains on track and aligned with approved work plans, SOPs, and national guidelines.
- Supervise Clinical Services Coordinators to enhance quality HIV services provision to the clients.
- Identify service delivery bottlenecks and work with project leadership and technical teams to resolve challenges.

4. Supervision, Mentorship, and Capacity Building

- Conduct and coordinate on-job training, mentorship, and supportive supervision for service providers on clinical services.
- Conduct clinical mentorship, training, and supervision for health workers.
- Strengthening clinical and programmatic capacity for facility teams.
- Promote the adoption of best practices, quality improvement approaches, and evidence-based interventions.

5. Quality Improvement, Monitoring, and Reporting

- Support continuous quality improvement (QI) initiatives for HIV care and treatment services.
- Monitor HIV care cascades, analyze data to identify gaps, and implement quality improvement plans.
- Lead Regional performance review meetings, develop action plans and follow up on action plans, and report on the progress.

6. Representation, and Compliance

- Participate in technical working groups related to HIV care and treatment services
- Work collaboratively with MOH, SSAC, PEPFAR partners, CSOs, and community stakeholders.
- Ensure all services comply with ethical standards, national policies, and donor requirements.

Education and Experience Requirements

Required Qualifications

- Bachelor's degree in medicine or Higher advanced diploma in Clinical Medicine, Diploma in Nursing, or a related medical field. Master's in public health will be an added advantage.
- Minimum 6 years of experience in HIV/AIDS clinical service delivery, coordination, training, or quality improvement.
- Experience in supportive supervision and mentoring of clinical teams
- Demonstrated experience implementing PrEP, HIV, and STI services.
- Strong knowledge of MOH HIV policies, SSAC structures, and PEPFAR priorities.
- Experience working with international donors, other stakeholders and partner organizations.

Skills and Competencies

- Strong clinical, coordination, and supervisory skills.
- Proven ability to train, mentor, and provide technical assistance to health workers and community teams.
- Ability to travel to remote areas with limited basic living conditions
- Excellent interpersonal and communication skills.
- Strong organizational and problem-solving abilities in fast-paced environments.
- Good report writing and documentation skills.
- Computer literacy in Word, Excel, and PowerPoint.
- Proficiency in spoken and written English; Juba Arabic desirable.
