

Invitation For Tender of Training UNIDOR Drilling Crew	
LOCATION	Juba, South Sudan
OPENING DATE	ASAP
CLOSING DATE	31 st January, 2020

1. Background

UNIDOR is a Christian-based, non-profit making and non-governmental national organization (NNGO) founded in 2004.

UNIDOR seeks quotes for comprehensive Training Curricula and working materials/consumables from certified drilling company or qualified individual drilling trainer to conduct a basic drilling training on water borehole drilling/construction for 5 UNIDOR Drilling Crew Members.

2. Purpose

The main purpose of the **Drilling Trainer** is to conduct a practical and theoretical basic training on water drilling machine for UNIDOR drilling Crew.

3. Major tasks

The drilling trainer will undertake theoretical & practical on mud and air drilling methods by drilling a successful borehole using a PRD Rig with following details:

- a) **Drilling Rig:** PRD 500T model cum rotary drilling rig with mast assembly of 3 meters to handle 2 meters drill rods, mounted on a single axle trolley supported by 3 hydraulic jacks;
- b) **Air Compressor:** ELGI made single stage screw compressor driven by a cummins engine to develop 450 cubic feet per minute (CFM) (@ 150 pounds per square inch (PSI), Mounted on a single axle trolley and the associated accessories.

4. Training Requirements

4.1 Training Venue

UNIDOR will provide training venue as this will involve theoretical and actual drilling of at least one (1) new borehole at UNIDOR compound in Juba as part of practical training.

4.2 Stationary

UNIDOR will provide the required stationaries for the drilling trainees

4.3 Lunch/Teas/Coffee

UNIDOR will provide lunch/teas/coffee and snacks during the training sessions.

4.4 Duration of training

Prospective Drilling Firm can propose the duration based on the designed training curricula.

5. Required qualifications and experience

5.1 Must have previous experience of minimum 5- 10 years on drilling site.

5.2 Must be a South Sudanese licensed drilling firm.

6. Interested drilling firm is required to provide the following documents

6.1 Explicit quote based on local current market trend in USD currency

6.2 Comprehensive Training Curricula/ training program and timetable

6.3 Valid Water drilling license of the drilling of the applying drilling firm

6.4 Training/ working materials & drilling consumables – find list attached herein

6.5 An upto-date CV of the drilling trainer

The above required supporting documents shall be submitted to UNIDOR South Sudan office at Tongpiny Juba Nabari Residential, Kololo Road near the Catholic University of South Sudan or email nyak@unidorss.org not later than Thursday 31st January 2020.

Only shortlisted Suppliers will be contacted for the interview.

The selection of the winner will be conducted through a competitive bid analysis (CBA) by UNIDOR Tender Committee (TC).
