About Us

PRO Seed Ltd is a private seed company engaged in seed production and trading in South Sudan. We are registered by the Ministry of Justice and Constitutional Affairs (Reg. No. 30,742) and recognized by the Ministry of Agriculture and Food Security as a seed company. We produce seeds mainly for field crops (maize, sorghum, cowpeas, groundnuts and sesame). We produce 20% of these directly in our farms, while 80% of these are produced by our out growers (contracted smallholder farmers) currently in Juba and Magwi Counties. We also partner with local farmers who produce seeds for local vegetables like okra, girgir, rigila and kudra.
