

Job Advert:

Position: Radiographer or image technologist.	Duty Station: Mother Tereza Hospital-Turale
Report to: Hospital Coordinator	Duration: Six Month
Number of Position: One(1).	
<p>Radiographer or Image technologist will be based in Mother Tereza Hospital and is responsible for using specialized medical imaging equipment to determine a patient's internal injuries or illnesses. Their duties include meeting with patients and talking with them about the types of tests they'll complete like Ultrasound and X-ray and communicating with Physicians about their findings to determine patient needs. Radiographer or Imaging technologist, is responsible for using specialized medical imaging equipment to determine a patient's internal injuries or illnesses.</p>	
<p>About us: Health Works also known as HealthNet TPO, is a knowledge-driven, non-profit international organization that works in areas disrupted by war, disasters and poverty. Working together with local populations, it works on rehabilitation and sustainable health care development. We aim to contribute to improve the overall health situation and support the development of systems for the provision of health care. Health Works contributes to community mobilization as a conditional necessity in populations recovering from long-time warfare. In doing so, we aspire to include and build the capacity of local organizations, communities and authorities. HealthNet TPO strives for developing evidence-based interventions to strengthen the health of populations in distress.</p>	
<p>Your role: Under the supervision of the Lot18 Program Manager, the Radiographer will ensure quality and relevance of HealthNet TPO's health interventions in Mother Tereza Hospital and also in the health facilities supported by HealthNet TPO in Lot18 in accordance with the prescribed guidelines of the National Ministry of Health of South Sudan, and coordinate activities in collaboration with the management of the Mother Tereza Hospital, SMOH and other stakeholders in the Hospital.</p>	
<p>Main Responsibilities:</p> <ul style="list-style-type: none"> • Reviewing and interpreting medical images to determine patient status and future medical care. • Applying medical knowledge and skills in diagnostic imaging for diagnostic and treatment purpose in MTH. • Determining the exact images required for diagnosis and delivering orders • Ensure the implementation and monitoring of updated MOH diagnostic protocols and universal precaution in the radiology department. • Administering trace amounts of radioactive substances to create and enhance diagnostic images • Monitor the proper functioning of radiology department, equipment and personnel.
