St Mary's University College

Job Advertisement

St. Mary's University College is an academic community of Higher Education dedicated to pursuit of distinctive goal that provides a forum where contemporary thought may intersect with all forms of knowledge found in Arts, Sciences and any other areas of human scholarship and creativity. St. Mary's University College, as a recognized and accredited Higher Learning Institution by the Ministry of Education, Science and Technology, has currently three specialized Schools (school of Education School of rehabilitation and school of Human development) that aim to build a cadre of professionals in the fields that are essential to the long-term success of the country.

The School of Education through teaching, research, publications and outreach activities aims at preparing highly competent primary school teachers who will contribute to the development of South Sudan. The School of Education offers a 3-year Diploma Program and a 4-year Degree Program in primary teaching; and graduates of the two programs are expected to educate pupils/students competently and professionally and guide them in all spheres of life – physically, psychologically, socially, culturally, morally and spiritually.

St Mary's University College is seeking to recruit result-oriented and highly-motivated individual for the position of a Chemistry and Biology Lecturer in the school of Education.

Job title:	Lecturer (Education) in Chemistry and Biology
Hours:	Full time
Tenure:	Six months (Probational period)
Contract type:	Permanent
Reports to:	Dean of School of Education
Placed on:	June 7, 2024
Closing Date:	July 3 rd , 2024

Main Purpose of the Job:

To provide Diploma and Degree Program students with knowledge and skills required to effectively teach chemistry and biology in primary schools.

Essential Duties and Responsibilities

The successful applicant will be required to teach courses at both the Diploma and the Degree Program, supervise students' thesis, conduct research and supervise teaching practicums.

Primary duties for this position will include teaching general chemistry, organic chemistry and biology (cell biology, basic genetics, variation and evolution), directing and assisting students' research, creating new learning opportunities for students and any other duties as assigned.

Requirements

- MSc or PhD (Chemistry or Biological sciences) or in related field
- Good time management and communication skills
- Prepared to supervise teaching practicums
- Experience teaching at the university level
- Commitment to teaching excellence and to the mission of St. Mary's University College
- A strong work ethic with commitment to continuous improvement
