

To streamline all practical and theoretical agricultural concepts to benefit farmers and agriculture department at ROG and county level. He/she will build the capacity of ROG livelihood project staff by providing agricultural extension advice. S/He will be responsible to ensure that the approaches used during implementation are accurate and effective, conforming to the best practice while staying relevant to the context of the project.

Job Summary:

Root of Generations (ROG) is based in South Sudan with support office in Juba, Chukdum and Kapoeta. The organizations work in collaboration with different entities to alleviate poverty, improve peace and wellbeing, champion gender equality and civic education, reduced inequalities, climate effects, ecological and environmental degradations. ROG values impact and therefore it seeks results-oriented individuals preferably females to join the dynamic and youthful team that we already have.

Root of Generations is a South Sudanese humanitarian, development and advocacy non-governmental organization, dedicated to working with youth, women, children, families, South Sudanese civilians, South Sudanese civil society entities, and South Sudanese government. We are being registered in 2016.
